

UniteBoston's Virtual Concert 09.12.20 | 7pm

Viewing Party Host Information

While we can't all be together for UniteBoston's summer concert this year, we envision "lights of worship" happening in neighborhoods and homes throughout the city.

Goals for the Viewing Parties:

- Build community with Christians of different backgrounds
- Create an environment of hospitality for people who don't attend church
- In alignment with our "Love Thy Neighbor" theme, to inspire people to think about their next steps towards loving their neighbor and engaging in their community

Details:

- The concert begins at 7:00pm and lasts approximately 75-90 minutes
- You can host a concert viewing party either in person or via Zoom
- If in person, we encourage practicing social distancing and sanitation protocols in accordance with state and local policies
- If on Zoom, you can use your own Zoom account or UniteBoston's Zoom account to host a room where people will watch it on Facebook Live together
- We encourage viewing parties to have a theme to build community around interest areas, such as a neighborhood/population/interest focus
- We will help spread the word about your viewing party through our website and encourage others to attend. People will RSVP by emailing you directly and we encourage sending out a reminder email with the details approximately 24 hours in advance
- As the viewing party host, your role will be to welcome everyone and help facilitate conversation at two points during the event: A 5-minute break halfway through the concert where people will be encouraged to share about their favorite song or lyric in the concert, and after the concert where people are encouraged to share the cause in the city that breaks their heart and how they have been inspired to love their neighbor

We'll have an [information session about hosting](#) on Thursday September 3 at 7:30pm to answer questions!

DEADLINE IS SATURDAY SEPTEMBER 5!

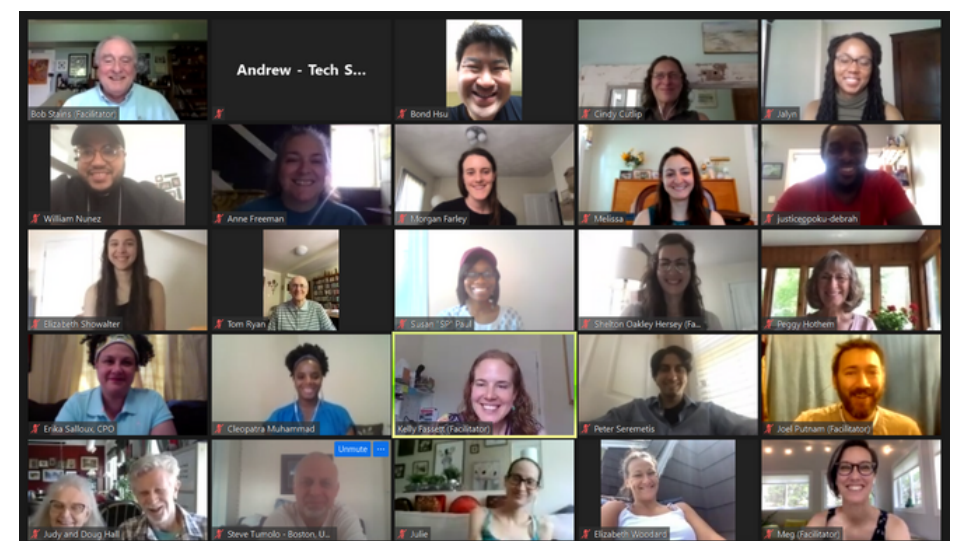

In-Person Viewing Parties

Here at UniteBoston, we have seen the importance of in-person gatherings for building relationships with friends old and new. We also want to be part of the solution in stopping the spread of COVID-19. Thus, we require people to wear masks when in proximity of others, practice social distancing and use sanitation protocols in accordance with state and local policies. We also ask that if you would like provide food/drink, consider serving pre-wrapped snacks. Note that the current state-mandated limit on outdoor gatherings is 50 people, and 40% of the room capacity for indoor gatherings.

Zoom Viewing Parties

Zoom gatherings are convenient, safe, and accessible ways to gather in these challenging times! We will be streaming the concert through Facebook Live, and you can use your own Zoom account or UniteBoston's Zoom account to hang out and enjoy the concert together.
